

Marius Ardelean

ASPIRING GRAPHIC DESIGNER

Profile

I am an ambitious father of two with a story to tell, starting from my dancing career to entering the computer world. Having started my career as a dancer, I became so passionate about technology that I shifted to web development. Now, I am going to blend my instinctual creativity with technical skills to seek a professional career in graphic design. This is the field in which I am most passionate, and I am dedicated to learning and growing as a professional graphic designer. My eclectic background fuels my creativity, and I am ready to bring fresh perspectives into every project.

Employment History

Graphic Designer – Freelancer

APRIL 2022 — PRESENT

Got a call from a friend if I want to try and learn about Graphic Design, now maybe half of what's on Baia Mare's street banners is my work. I love creating designs in CorelDraw, learned Photoshop and some Illustrator (which is very close to CorelDraw)

Web Developer – SC HOLISUN SRL

MAY 2022 — PRESENT

I started with developing websites, integrating lots of addons, after a few months I started working with Low Code and Mobile Applications, and now I work with all these technologies

Ballet/Folk Dancer, National Folk Ensemble "Transilvania", Baia Mare

SEPTEMBER 2009 — MAY 2022

Volunteer/Coordinator, RoRec, Baia Mare

JULY 2010 — APRIL 2012

In this job me and a team of 5 people, had to collect old and broken appliances and electric devices from people around the county. Those who sent their old items to us/recycling, won valuable tickets and other appliances prizes. I was the man in the front, the one responsible for everything.

Staging daily worker, ArtTradition, Baia Mare

JULY 2019 — NOVEMBER 2020

Me and a team of 4-6 other persons were putting together stages for all kind of shows around Romania. As I am professional dancer, I knew how to handle the stages for my own advantage.

Education

Graduated Informal School of IT, Cluj-Napoca

JANUARY 2021 — MAY 2021

Web Developer, kicked-off in this world of IT. I Like new and hard challenges, and I like seeing results immediately
